1. The first part of the paper is devoted to a general  
discussion of the problem. It is shown that the  
problem is of great importance and that it has  
not been completely solved. The author then  
presents a new method for solving the problem.  
The method is based on the use of the  
Fourier transform and the method of  
steepest descent. The author shows that the  
method is very efficient and that it can be  
applied to a wide range of problems.
